

NORTH KING COUNTY TRAINING CONSORTIUM TRAINING BULLETIN

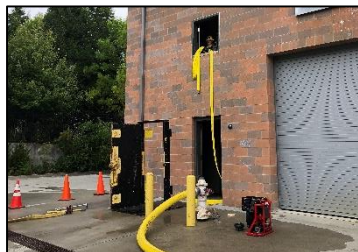

3Q 2020 MCO

Overall there was great participation and enthusiasm during the MCO's. Below are some quick notes that lead to successful incidents.

Initial Radio Report (IRR) - First in Company Officer "paints the picture" - Hail Dispatch, Number of Stories, Structure Type, Water Supply, Command, 360

Follow Up Report (FUR) - Confirms your Incident Action Plan (IAP) - Hail Dispatch or Command, 360 Complete, Life Safety, Hazards, Confirm Fire Location, Mode, Exclusion Zones if present

2 in 2 Out - Are you in Rescue Mode? If not, do you have a Stand-by Team or RIC?

Transfer of Command - If the 2nd in Officer assumes command, do they have a clear picture of units and assignments? Did Tasks, Location and Objectives (TLO's) get communicated over the radio?

2nd in Officer Assumes Command - Location, Mode, Control Zones, 2nd Alarm, if so, where?

Tactical Benchmarks!!! Tactical Benchmarks!!! Tactical Benchmarks!!!

These practiced behaviors accomplish standard interoperability among our agencies, while insuring we meet legal and industry standards, which directly improves firefighter safety.

4Q 2020

LIFE IS LIKE
a camera
JUST FOCUS
ON WHAT IS IMPORTANT
CAPTURE
THE GOOD TIMES
DEVELOP
FROM THE NEGATIVES
IF THINGS DON'T WORK OUT
take another shot!

OUR VISION:

Enhance regional
training by
improving
operational
consistency and
interoperability

**IMPORTANT
REMINDER**

ISO Participants -
The deadline is
quickly
approaching.

CBTs - Skills check
will be next
quarter.
Complete on-line
portion prior.

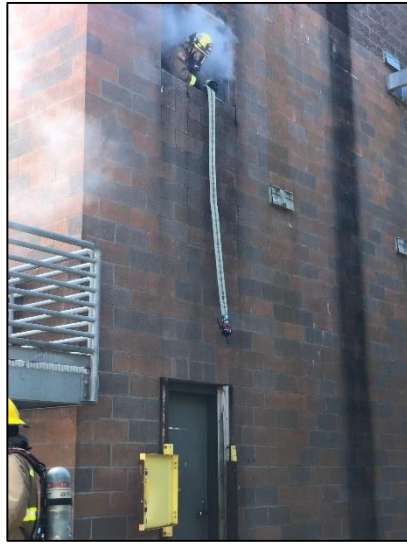

TRT - Please
complete a roster
at all refreshers
training

Inside This Issue

- Pg 3 NKCTC Pump Academy | CBT Update
- Pg 4 Confined Space Rescue Refresher | What's Coming Next
- Pg 5 Words Mean Something – A Crossword Contest
- Pg 6 KC Fire Chiefs Association Update | Acquired Structure
- Pg 7 Feel Good News | Contact Information

Bothell Fire | Northshore Fire | Shoreline Fire | Woodinville Fire & Rescue

3Q NED – ELEVATED MASTER STREAM

Thank you for participating in this quarter's NED: Elevated Fire Attack. The three basic skills we practiced were:

- Hoseline up a ladder (aerial and ground)
- Drop Hose (formerly known as Bundle Drop)
- Drop Rope (formerly known as Drop Line)

These skills can be particularly valuable when placing hoselines to roofs of buildings, walkways of garden style apartment buildings or apartment unit decks. Please remember to tie off your ladders and hoselines for safety!

WELCOME

2020 NKCTC PUMP ACADEMY

The first ever NKCTC Pump Academy was a great success this August. We had 15 participants and 4 instructors. Two days were held at St. 51 and two days at the State Fire Academy in North Bend. Everyone who participated came ready to work and learn. Lots of hands on drills and problem solving scenarios created a great environment to get better at our craft. The members that attended came away better driver operators at weeks end. Lost supply, relay pumping, the first 5 minutes, drafting, and complex problem solving where all stations teams rotated through. Next year we are planning to add an IFSAC Certification. Stay tuned for upcoming dates.

Special thanks to the instructors who dedicated their time preparing and executing the training for the four days:

Ken Hofschulte – Northshore
Kyle Colletti – Northshore
Nick Martindale – Bothell
Nate Bess - Shoreline

Congrats to the students who completed the NKCTC Pump Academy:

Jace Allen – Woodinville
Owen Amos – Shoreline
Chris Barnes – Bothell
Seth Crawford – Bothell
Evan Escamilla – Woodinville
Hans Hurn – Northshore
Justin Iufer – Bothell
Sara Ives – Bothell
Josh James – Woodinville
Matthew Langbehn – Northshore
Terrance Lewis – Shoreline
Keenan Miles – Shoreline
Ryan Olson – Woodinville
Jayden Petro – Northshore
Willis Reed – Shoreline

If you would like some extra training, build some skills, get more tactical experience, we are here for you! Any one of our Training Officers would be happy to go to your station!

Call or email to set up a date and time!

CBT Update

2020 has been a little crazy (to say the least) and thanks to COVID we have had to cancel and adjust a lot of our training.

For your 2020 CBT requirements, you will need to watch all of the videos as the lecture portion of the training and attend the skills check portion in October/November. Turn in all skill sheets at once.

Please work on your on-line portions ahead of the skills check.

Congratulations!

Congratulations to DC McDonald for his new role as Deputy Chief for Northshore Fire

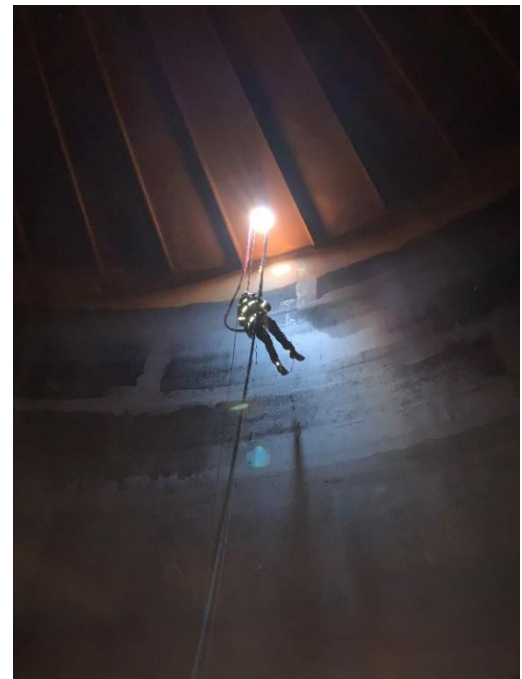

Ideas

Do you have a content suggestion or request for the Training Bulletin? Send an email to dmagistrale@nkctc.org.

CONFINED SPACE RESCUE REFRESHER

Lt. Merrick with Shoreline was the lead for the Confined Space Rescue refresher training at Point Wells (Aug. 31st, Sept. 1st -3rd). The drill involved Bothell, Northshore, Woodinville and Shoreline Fire Departments. The drill was a simulated rescue of a worker inside a large tank. The rescuers had to enter through a 20" hole on top of the tank and be lowered some 45' to the victim. The rescuers were wearing self-contained breathing units while rescuing the patient. The rest of the rescue team was on top of the tank operating a raising and lowering systems. The drill was part of the required annual training for TRT in Confined Space Rescue.

Upcoming "Stuff"

November - Live Fire MCO in Sultan.
Check FireTrex for pre-read.

ISO Certification Testing in December.

WORDS MEAN SOMETHING

Find the Tactical Benchmarks. To make it a little harder, the words will not be provided.
You can find them all on the Tactical Worksheet! (May not include all the words)

Turn your completed puzzle in to dmagistrale@nkctc.org by **10/8**. On 10/12 we will draw a puzzle from each Agency.
Those chosen (if completed correctly) will win a NKCTC Challenge Coin! Good luck!

KC Fire Chiefs Association

Update

Coming soon from the King County Fire Chiefs Association, revisions to the King County Model Procedures.

On December 15, 2019 King County Fire Chiefs Executive Committee asked the King County Fire Chiefs Operations Group to review all King County Fire Chiefs Model Procedures, including the Purpose Statement. The KC Executive Team agreed that the intent of the Model Procedures should support the King County Automatic Aid ILA. The goal is for the procedures to be used as department SOGs/SOPs where applicable, instead of having different SOGs/SOPs that may conflict. The effort is to move towards the County acting as one department.

Over the past year the Committee reviewed all King County Model Procedures and had representatives from Zone 1, 3 and 5 as well as representatives from Valley Communications, NORCOM 911, SKCFTC and NKCTC. These changes will be presented to the Chiefs in October with a request to adopt by the OPS Chiefs. Plan on information coming out in the next couple of months highlighting those revisions and how training and fire ground operations may be affected.

Any questions, please see your OPS Chief or feel free to give me call.

-Erik Wallgren

ACQUIRED STRUCTURE TRAINING

We were fortunate to be given the opportunity to use the Washington Tree Service Campus as a training facility during the month of September. This commercial structure gave us the ability to practice hose lays, water flow, forcible entry and ventilation.

Special thanks to TO Orams and LT Pitts for their work in securing the building and assistance with facilitating the training.

IN THE FIRE SERVICE

It is refreshing to receive such positive community support for our firefighters. This particular good deed was directed to those serving outside communities fighting wildfires.

Heidi McDaniel, a Kenmore community member, issued a Facebook challenge to raise money for gift cards to send our deployed firefighters. The challenge was that any amount of money raised in a 24-hour period would be matched by her and her husband. Between her social network and their personal donation they raised \$5000. Additionally, US Bank came to our aid and waived the \$6 activation fee for any VISA gift card that were purchased.

Heidi's desire to serve her community in a creative way is to be commended. The thoughtfulness of her actions are very honoring to those that are working tirelessly on the front lines.

Do you have a feel good story? Share it with us!
